

TOPIC:

How will this scholarship help you attain your goals?

BRAINSTORMING

Professional goals:

- Finish my engineering degree.
- Work in engineering projects.
- Continue postgraduate studies.
- Participate in research and technological development.

English-related goals:

- Read scientific papers.
- Understand technical manuals.
- Communicate with professionals from other countries.
- Participate in international projects.

Personal goals:

- Learn about other cultures.
- Develop independence and adaptability.
- Improve communication skills.

THESIS STATEMENT

This scholarship will help me attain my academic, professional and personal goals by improving my English skills, expanding my international experience and preparing me for a successful career in engineering.

OUTLINE

Topic:

How will this scholarship help you attain your goals?

I. Academic development

- A. Improve English proficiency.
- B. Access scientific papers and technical information.
- C. Enhance learning opportunities.

II. Professional development

- A. Communicate in international environments.
- B. Participate in multinational engineering projects.
- C. Increase future employment opportunities.

III. Personal growth

- A. Learn about different cultures.

- B. Develop adaptability and independence.
- C. Build international relationships.
